

**For immediate release April 26, 2011**

**Visit The Towner Management Group at the U.S. RIMS Conference**

When the Risk & Insurance Management Society (RIMS), Inc. holds its 2011 Conference and Exhibition from May 1 to May 5 at the Vancouver Convention Center in British Columbia, Canada, The Towner Management Group (TMG) will be well represented.

This U.S. RIMS annual conference is the first held outside the United States in 15 years. Fittingly, from Barbados, Founder and Chairperson Christopher J.N. Towner, President Ricardo O. Knight and Vice Presidents Kirk E. Cyrus and Gregory A. Smith will represent TMG.

The quartet, as well as the rest of the TMG team in Barbados, is proud to be the manager of the captive for Bombardier, Inc., whose Daniel Desjardins is being honored during this year's conference as one of four honorees on *Business Insurance's* 2011 Risk Manager Honor Roll. Mr. Desjardins is Bombardier's Senior Director of Global Risk Management and Insurance.

Also representing TMG will be Guy Ragosta, CEO and Partner of its U.S. Operations, Len Crouse, Partner from Vermont, and Thomas P. Stokes, Managing Principal of The Towner Management Group (NY) LLC and Consulting Practice Leader, based in TMG's New York office.

At least one of TMG's representatives can be found throughout the conference at Booth #701, the Barbados domicile booth located at the entrance to the exhibition hall. The company's executives can also be reached personally during the conference via smart phone email at the information listed below:
